The Peculiar Audience Which Pleasant Paragraphs Found in Items of Interest Pertaining to Many New Animals Received by "Natural Gas" Encountered.

Gabrielle Du Sauld to Resurrect "The Lion and The Lamb,"

Donnelly and Girard, of "Natural Gas" listinction, tell a funny story. They tell many, but this one seems particularly original. It appears that they were broked to play in a small town, called Creaton, In. Creaton is peculiar. It is populated by railroad employees. When all the trains are in the town is full; when they are out Goldsmith's deserted village is a fool compared to Creston, in point of depopu-lation. Donnelly and Girard haspened to arrive in the town when the railroad people were there, on a pay day. Everything tended in the direction of a large, appreciative and financially desirable andience. Most of the men who came to the theatre had lanterns in their hands, and wore other emblems of evening dress in Crestor. Biddle, the manager, stoot at the door. A gruff-looking individual presented himself and skel for admittance on the ground that he wanted to go up into the gallery for a few minutes to call "Bill." The identity of Bill he did not attempt to reveal. The performance began and proceeded smoothly uttil a little bell came. The actors were then startled to hear, uttered in a loud voice that drowned everything else, the following

"The Lion and the Lamb," the play by Will R. Wilson and Julius Lewis, that was produced at the Risou Theatre last Summer, has been "let" in royalty to Cabrielle Du Sauld, who will begin a tour with it Sept. 15. Miss Du Sauld will play Mile. Nodoz, ber original part, that of a French ballet dancer. In the mean time she is doing a little "Bootles's Baby "ing, and has been rehearsing for some time on the stage of Tony Pastor's Theatre.

A St. Louis lawyer made an argument the other day in defense of actors and actresses who are annoyed unnecessarily by attachments for small sums. He said that St. Louis had become notorious for the part it had been playing in such actions. Perhaps this gentleman's experience with theatrical people iad not been very large. There are people in this metropolis who bless the attachment as positively the only effective means of collecting a debt. Of course it is very annoying—for those attached.

Rumor says that the partnership between Henry E. Abbey and Maurice Grace will be dissolved. But that is one of the questions in which rumor alone can speak.

Mr. and Mrs. Kendal are to be elaborately feted upon their return to London. Fay Templeton is continually sending cunning little cable messages to her future manager. W. H. Lykens, teiling him of the lovely costumes she has, with plenty of so on, and a great deal of so forth. Broadway gossipers, who know the cel-like clinstveness of the Templeton, don't nesitate to declare that he is going to get left. But Mr. Lykens smiles in his own particularly ornamental way, and asserts that Fay would not mistreet him. He has now arranged for her to ancear at Proctor's Twenty-third Street Theatre in August.

George W. Lederer has a health to look after, so he is going to reinvigorate it by a trip to Havana, and then to San Francisco,

Nat Goodwin is going to play in London this Summer. He will open at George Edwardes's Galety Theatre. Mr. Goodwin ought to prove a great attraction on the other side of the Atlantic, and George Edwardes ought to do everything in his power with that end in view. America is treating his Gaiety people rather nicely. There is much in reciprocity.

Prof. Herrmann was not at all disturbed when a member of the Howard Athensum Specialty Company announced the other day in Boston that he was going to expose 'La Cremation' and other conjuring tricks. "I tell you, this intense rivalry and feeling between the players of the opposing leagues is going to result in some good ball-playing.
